Large Mouldings

With two machines 7m in length x 3m in diameter, Rototek is capable of some of the largest rotational mouldings in Europe.

The machines are unique in design and are controlled using software developed in-house ensuring our capacity for technical mouldings is spread amongst the whole factory.

As well as conventional large mouldings, particular areas of expertise lies in: multi-layer mouldings, tank linings,

They say, word of mouth is the best form of advertising. Well you'll get plenty of good things passed on by me!
